DETAILED ACTION

This action is in response to amendments filed on August 17, 2007.

Allowable Subject Matter

Claims 1-11 allowed.

The following is an examiner's statement of reasons for allowance:

Claimed in independent claim 1 is a sliding film composed of PTFE, titanium oxide powder, and a silane coupling agent with the following contents by mass relative to a binder resin:

PTFE, 15 to 100%

titanium oxide powder, 5 to 35%

silane coupling agent, 2 to 8%

This sliding film is a non-obvious improvement over the sliding film applied to the compressor in EP 1031726, where the sliding film was formed of a fluorocarbon resin with wear-resistant additives.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
